

Research Italian FDI in the U.S.

Project Title	Research Italian FDI in the U.S.
Project Summary	Research Italian-owned businesses in the United States to assist the Treaty Visa unit.
Country	Italy
Agency	Department of State
DoS Office	N/A
Post	ROME
Section	CONS
Number of Interns	1

Project Description

Embassy Rome's Treaty Investor Visa Unit requests the assistance of a virtual intern to research US-based (and Italian-owned) businesses applying for investor visas.

Italy is the 8th largest investment visa issuing post in the world, with 2,398 applications processed in 2016 alone. The treaty visa program results in foreign direct investment in the United States, increasing employment and trade in many local communities.

Embassy Rome is seeking an intern to conduct initial research into companies applying for investor visas for their owners/employees. The intern would utilize publically available information to build a profile of each prospective business.

Desired Skills Interests

Additional Information

This project would be ideal for a business student but is open to students from any academic background.
